FOR STRONG BONES & TEETH

This product provides an optimum mix of red algae calcium, Vitamin D₃, Zinc, Vitamin K₂ and Magnesium to promote bone strength and support healthy pregnancy.

COMPOSITION:

Each 5 ml contains:

Red Algae Calcium	760 mg.
Vitamin K ₂ (MK-7)	20 mcg.
Vitamin D ₃	400 IU.
Magnesium	16 mg.
Zinc (as gluconate)	3 mg.

Product Specs.: In-house

This comprehensive plant source calcium, vitamin and mineral formulation is designed to provide:

- Organic source Calcium to help meet calcium requirements to maintain a healthy pregnancy
- Contribute to bone mineral density and helps reducing the risk of fracture
- Reduce the risk of osteoporosis
- Supports in strong bone building
- Direct calcium to the bones and thus contributes to bone strength

SUPPLEMENTAL FACTS:

Red Algae Calcium:

(Lithothamnion, imported from FDA approved European source Marigot Ltd Stand Farm, Ireland)

Calcium is important for optimal bone health throughout the life. Red Algae Calcium is an organic calcium derived from marine Red Algae, proven to help increase Bone Mineral Density. Kalv is readily absorbed and bioavailable. Calcium is an essential nutrient that helps build and maintain healthy teeth and bones. Adequate Calcium intake may reduce the risk of osteoporosis.

- Plant source calcium is more absorbable and bioavailable.
- Red Algae Calcium contains 72 other naturally combined trace minerals whereas rock calcium is not rich in other minerals.
- Plant calcium showed more reduction in PTH levels in comparison to limestone calcium (PTH is a hormone that moves calcium out of the bones).

VITAMIN K₂ as (Menaquinone MK-7) is the active isomer of Vitamin K₂, exclusively manufactured by KAAPA, Germany: Calcium homeostasis depends on the interplay of modulator compounds of which vitamin K₂, especially Menaquinone-7, has assumed a vital and key role in last decades. It has a high bioavailability, a long plasma half-life. MK-7 helps to keep arteries clean from arterial calcification by directing calcium to bones and keeping it away from arteries.

KALV provides high source of natural, more stable Vitamin K₂ as MK-7 with a very high bioavailability and a very long half-life in blood (Gnosis patient):

KALV provides high source of elemental calcium from Red Algae Calcium (32% elemental calcium by weight):

Vitamin D₃:

Cholecalciferol, a must vitamin to have with calcium, assists in enhancing calcium absorption from intestine and maintain adequate serum calcium levels. Vitamin D₃ is the activated form of Vitamin D vital to bone formation. Without sufficient D₃, bones can become thin, brittle or misshapen. Together with calcium, vitamin D also helps protect older adults from Osteoporosis.

Back

Magnesium:

Works in synergy with vitamin D₃ to enhance calcium absorption from intestines and facilitates bone health, flexibility and movement. Magnesium also has a role in stimulating bone-preserving hormones. Magnesium also has a role in stimulating bone-preserving hormones.

Zinc:

Zinc helps keep your immune system strong. Because it is necessary for immune cell function and cell signaling, a deficiency can lead to a weakened immune response.

Nutrients do not work alone and their functions are interdependent. Calcium, vitamin D₃, vitamin K₂ and magnesium has synergistic effect on the bone health and should ideally be taken in combination.

DOSAGE AND ADMINISTRATION:

Children 1-3 years: 1 teaspoon

Children 4 years and above: 2 teaspoons or as prescribed by the physician.

SIDE EFFECTS:

No known side effects.

WARNING:

Don't use the supplement in case of allergic reaction to any of the ingredients.

PRECAUTIONS:

It is best to consult your health care provider if:

- You suffer from a pre-existing medical condition
- You are taking any other medicines

OVERDOSE AND TREATMENT:

In case of accidental over dosage, contact your physician or refer to nearby healthcare facility immediately.

INSTRUCTIONS:

- Store below 30°C.

- Protect from heat, sunlight & moisture.

- Keep out of the reach of children.

SHAKE WELL BEFORE USE

PRESENTATION:

Kalv Syrup : Bottle of 120 ml.

Manufactured by:
Phytocon International (Pvt.) Ltd.
339-A, Sundar Industrial Estate, Lahore, Pakistan.

Distributed by:
Nexpharm Healthcare (Pvt.) Ltd.
65 Industrial Estate, Kot Lakhpat, Lahore, Pakistan.
