Product Specs.: In-house

Horny Goat Weed Extract:

Icariin is the extract from the horny goat weed that is responsible for its properties. Icariin has a selective inhibitory effect on PDE5 making it an effective agent useful for the treatment of erectile dysfunction.

Tribulus Terrestris Extract:

Traditionally used since ancient times for sexual health. Tribulus Terrestris has been shown to have positive effect as an aphrodisiac due to its potential to relax smooth muscle and hence improve erectile function, increases the production of serum testosterone and the conversion of testosterone to dihydrotestosterone, increased production of testosterone and better health contribute to the increase in sexual functions, especially the increase in sex drive.

Zinc:

Body needs zinc to make proteins and DNA, the genetic material in all cells. Body needs zinc to grow and develop properly. Zinc supplementation may be associated with improved sperm quality and male fertility.

Shilajit (Asphaltum):

Shilajit supplementation promotes the retention of maximal muscular strength, exhibits antioxidant, human studies indicate that shilajit enhances spermatogenesis. Data supports its use as a 'revitalizer', enhancing physical performance and relieving fatigue with enhanced production of ATP, shilajit has also been ascribed as a potent aphrodisiac and used to treat male sexual dysfunction. It has been reported that shilajit increases serum testosterone level and sperm number in man.

Fenugreek Seed Extract:

Its seed increase the physiological aspects of libido in healthy adult males. Extract from Fenugreek seed showed an enhanced fertility and improved sperm profile in male.

Ashwagandha Root Extract:

Oral intake of Ashwagandha roots has been found to inhibit lipid peroxidation, improve sperm count and motility, and reproductive hormone levels. The molecular mechanism of these effects, however, yet to be unveiled.

DOSAGE AND ADMINISTRATION:

Unless otherwise advised by the doctor recommended dosage of YTiG Plus is 1-2 tablets once or twice daily with meals for at least 4-12 weeks or as directed by the doctor. The dosage and duration of treatment may be adjusted according to the characteristics and severity of problem. For better and effective results YTiG Plus tablets must be used regularly without missing a dose.
