COMPOSITION:

Each film coated tablet contains:

<i>Epimedium grandiflorum</i> (Icariin)	400 mg
<i>Tribulus Terrestris</i>	300 mg
L-Arginine HCl	100 mg
<i>Lepidium meyenii</i> (Maca Root)	100 mg
Muira Puama	100 mg
<i>Panax Ginseng</i>	50 mg
Yohimbe Bark Extract.....	50 mg
Saw Palmetto Berry Powder	40 mg
<i>Ginkgo Biloba</i>	40 mg
Vitamin E 50% Powder	30 mg
L-optic zinc	5 mg
Selenium as Sodium Selenite	0.033 mg

Epimedium grandiflorum (Icariin):

Icariin is the extract from the horny goat weed that is responsible for its properties. Icariin has a selective inhibitory effect on PDE5 making it an effective agent useful for the treatment of Erectile dysfunction.

L-Arginine:

Arginine is the biological precursor of nitric oxide (NO), a molecule having a variety of physiological effects on blood vessels. Arginine has effects on improving blood flow to the male reproductive organs.

Tribulus Terrestris:

Traditionally used since ancient times for sexual health. *Tribulus Terrestris* has been shown to have positive effect as an aphrodisiac due to its potential to relax smooth muscle and hence improve erectile function.

Maca root extract:

Maca refers to the plant *Lepidium Meyenii*. Traditional medicine has been known for the aphrodisiac activity

Panax Ginseng:

Panax ginseng has varied actions and effects to improve vitality. Active ginsenosides, which have been shown to have a variety of beneficial effects as antioxidants. Panax ginseng improves strength and exercise performance.

Muira Puama:

Used as a tonic to help treat neuromuscular problems. Used for improving sexual debility. Muira puama, also called "potency wood," is used in traditional medicine to tone reproductive disorders and to help enhance the libido.

Yohimbe Bark Extract:

Traditionally used to treat forms of erectile dysfunction. Yohimbine is believed to be a reasonable therapeutic option for erectile dysfunction.

Saw Palmetto Berry Powder:

Saw Palmetto Berry has been used anciently for treating urinary tract problems.

Ginkgo biloba:

Enhanced supply of blood to the sex organs is crucial to attain and maintain erection. Use of ginkgo biloba extract may help in the treatment of erectile dysfunction caused by poor circulation

L-optic zinc:

Body needs zinc to make proteins and DNA, the genetic material in all cells. Body needs zinc to grow and develop properly. Zinc supplementation may be associated with improved sperm quality and male fertility.

Vitamin E:

Vitamin E acts as an antioxidant, helping to protect cells from the damage. It helps to cleansing blood vessels and may help keep blood from clotting within them.

Selenium:

A nutrient that the body needs to stay healthy. Selenium may exert positive effects on male reproductive system since improved selenium in blood have shown positive effects on sperm motility.

DOSAGE AND ADMINISTRATION:

Take 1 - 2 tablets daily with meal as a dietary supplement or as directed by the physician.

OVERDOSE AND TREATMENT:

In case of accidental over dosage discontinue using this medicine, call a doctor or refer to healthcare facility immediately.
